## WORK EXPERIENCE

### **Web Development Internship**

Lensroom, Delhi

Internship • Jan 2024 - Mar 2024 (2 months)

During my internship at Lensroom, I developed [www.lensroom.live](http://www.lensroom.live) from scratch, mastering animations and responsive design. This experience strengthened my web development skills and emphasized the importance of effective teamwork.

### **Web Development Internship**

Garg Defence And Aerospace Pvt. Ltd., Delhi

Internship • Jan 2024 - Present (3 months)

In my web development internship at GDA, I took on the responsibility of building their website from scratch. This experience allowed me to learn and apply new animations and designs, resulting in the delivery of a fully responsive and modern website

### **Campus Ambassador**

Krayonnz, Virtual

Internship • Mar 2023 - Apr 2023 (1 month)

Completed a dynamic 6-week Campus Ambassador internship at Krayonnz, demonstrating effective promotional skills and contributing to brand awareness initiatives.

POSITIONS OF  
RESPONSIBILITY

Web Developer Head at StartupX Society, DTU. Lead projects, including SkillOP and ResumeBuilder, creating real-time professional websites. Conduct sessions on backend development, actively mentoring junior members in in society

PROJECTS

**Skycol**

Dec 2023 - Jan 2024

<https://github.com/kartikvermaji/Skycol/>

The website is designed as a MERN-based social media platform wherein users engage with one another's posts through actions such as liking and commenting. Additionally, users can view comments on posts and have the capability to add other users as friends, thereby accessing their respective friend lists. Notably, the platform employs JSON Web Token (JWT) security measures to ensure data protection and user authentication.

**Market**

Feb 2024 - Present

<https://github.com/kartikvermaji/Market>

The website is a MERN stack e-commerce platform offering users a visually appealing interface showcasing top and new products through a captivating hero section and carousel. On the shop page, users can efficiently filter products by brand and category, and proceed to add items to their cart or make purchases. Within their user profiles, individuals can access their order history alongside various additional functionalities. Additionally, plans are underway to incorporate several administrative features to enhance the platform's management capabilities.
